COPYRIGHT 2021-2023 - All rights reserved by KOOP Labs LLC

ABSTRACT:

This whitepaper presents KOOP360, a decentralized community-driven ecosystem that aims to provide innovative technologies such as Metaverse, AI, NFTs, and PTO (Play To Own) games. The ecosystem offers users and KOOPERS the opportunity to learn, play, use, and even develop tools, avatars, VR fields, ecosystems, games, NFTs, and more, while earning incentives and rewards. With a visionary team of AR/VR experts and blockchain evangelists, KOOP360 is poised to achieve exponential growth and drive the adoption of these technologies.

This whitepaper outlines the overview, roadmap, tokenomics, and features of the KOOP360 ecosystem.

TABLE OF CONTENTS

1. INTRODUCTION

- 1.1 OVERVIEW
- 1.2 VISION AND REALITY
- 1.3 ROADMAP
- 1.4 TOKENOMICS
- 1.5 WHY POLYGON CHAIN OVER BSC FOR THE KOOPGAMES?

2. PROJECTS

- 2.1 THE USE CASES OF KOOP TOKEN
- 2.2 KOOPGAMES
- 2.3 KOOPAI TOOLS
- 2.4 KOOPWALLET
- 2.5 KOOPVERSE EVENTS
- 2.6 KOOPVERSE
- 2.7 KOOPDEALS
- 2.8 KOOP TOKEN

3. FEATURES AND BENEFITS OF KOOP360 ECOSYSTEM

1.1 OVERVIEW

KOOP360 is a decentralized ecosystem that focuses on developing and implementing cutting-edge technologies such as Metaverse, AI, NFTs, and PTO games. The ecosystem empowers users to engage in various activities while earning incentives and rewards.

1.2 VISION AND REALITY

The visionary team behind KOOP360 has conducted extensive research on the integration of blockchain, AR/VR tools, and their real-world applications. With the support of top global audit firms and the

adoption of Fortune 500 companies, KOOP360 aims to achieve exponential growth within its ecosystem.

1.3 ROADMAP

PHASE 01 – COMPLETED

- ECOSYSTEM SITE LAUNCH
- KOOP TOKEN DEVELOPMENT
- KOOP TOKEN LAUNCH
- PRESALE INITIATED 5,000 KOOP HOLDERS

- KOOP LABS LLC INCORPORATION
- KOOP WALLET PHASE 01 LAUNCH

PHASE 02 – COMPLETED

- PRESALE CONTINUES
- 20,000 KOOP HOLDERS
- KOOPDEALS.COM – SITE LAUNCH
- KOOPVERSE.COM – SITE LAUNCH
- METAVERSE ARENA DEVELOPMENT & FIRST METAVERSE TRIBUTE EVENT

1.3 ROADMAP

PHASE 03 – UNDER DEV PROCESS

- PRESALE CONTINUES
- 40,000 KOOP HOLDERS
- KOOP360 GAMING SITE LAUNCH WITH ECOSYSTEM 1ST VREATED PLAY TO OWN & EARN GAME WITH STAKING UNDER WEB3 REALITY ENVIRONMENT

PHASE 04 – KOOP360 TECH PROCESS GOES ON

- PRESALE CONTINUES
- 75,000 KOOP HOLDERS
- KOOPWALLET PHASE 02 LAUNCH – FEATURES INTEGRATION WITH WEB3 POSSIBILITIES
- MORE KOOP360 WEB3 REALISTIC GAMES AT PLATFORM TO PLAY, STAKE AND EARN

WWW.KOOP360.COM

1.4 TOKENOMICS

KOOP360 Token Distribution - GOVERNANCE

Token Name	KOOP360
Ticker	KOOP
Token Chain	BEP-20 BSC & ERC-20 Polygon
Total Supply	1,000,000,000,000 KOOPs

BEP-20 BSC Contract	0x8B4a499019a50c0094A8f700E2393Ee811572964
ERC-20 Polygon Contract	0x7614BD00E0560Ec9214E4Fcb36d5Ae23b3eCd3c5

On-Chain Community Rewards

Private Placements (20%) + ITO (20%)

Company

On-Chain Conversion Policy:

NO ACCESS WITH **100% COMMUNITY GOVERNANCE POLICY** through Rewards and Incentives by converting **55% BSC Chain KOOP Tokens** into more decentralized, fast, and low fee on-chain **100% ERC-20 POLYGON-POS Chain KOOP tokens**. BSC Chain 55% KOOP tokens have been burned / deleted to the following BSC Chain address.

Tracking Details of the Burned / Deleted KOOP:

<https://bscscan.com/tx/0x09c7fdaa935999ac065297be01eda2e48dcc22e330a1c29792146f1270c10a63>

1.5 WHY POLYGON CHAIN OVER BSC FOR THE KOOPGAMES?

Polygon and **Binance Smart Chain (BSC)** are both Layer-2 scaling solutions for **Ethereum** that offer faster transaction speeds and lower fees than the Ethereum mainnet. But there are some **key advantages** that Polygon has over BSC.

Decentralization

Polygon is a more decentralized network than BSC. **BSC** is largely controlled by **Binance**, the world's largest cryptocurrency exchange. This gives Binance a lot of power over the network, which could be a concern for some users. Polygon, on the other hand, is more decentralized, with over 100 validators. This makes it less likely that a single entity could control the network.

Security

Polygon is also more secure than BSC. Polygon uses a Proof-of-Stake (PoS) consensus mechanism, which is more energy-efficient and secure than the Proof-of-Work (PoW) consensus mechanism used by BSC.

Ecosystem

Polygon has a larger and more active ecosystem than **BSC**. There are over 7,000 dApps and DeFi projects built on Polygon, compared to just over 3,000 on BSC. This makes it easier to find DApps and DeFi projects to use on Polygon.

Overall, Polygon is a more decentralized, secure, and feature-rich Layer-2 scaling solution for Ethereum than Binance Smart Chain. If you're looking for a scalable and secure platform to build dApps and DeFi projects on, Polygon is a better choice than BSC.

2.1 THE USE CASES OF KOOP TOKEN

KOOP GAMES

PTO (PLAY TO OWN) Games with one of the most active personal experiences with daily activities. EARN as well as OWN

KOOP AI

Robotic single-command AI tools are artificial intelligence-powered tools that can be used to automate daily online routine tasks with a single command.

KOOP WALLET

Send, Receive & HODL your funds with seven (07) blockchain assets. Earn Referral incentives and bonuses in KOOP tokens.

KOOPVERSE EVENTS

A proven unique Metaverse arena that is designed specifically for futuristic online virtual events and concerts. It can be transformed as an immersive environment for any of the interactions.

2.1 THE USE CASES OF KOOP TOKEN

KOOPVERSE

The NFT marketplace and AR/VR Metaverse fields offer a unique opportunity to create new and innovative ways to interact with content, and to learn, and experience advanced digital art and technology.

KOOPDEALS

A machine learning (ML) model for e-commerce deals, is a system that can automatically negotiate and execute the business processes and deals, with or without human intervention options.

KOOP TOKEN

The fuel that is driving the ecosystem with value appreciation proposition. KOOP will provide the possibility of either discount, or bonus, or reward / incentive, within the project(s) of KOOP360 Ecosystem.

2.2 KOOP GAMES

KOOPGAMES IS THE FLAGSHIP PROJECT OF KOOP360, AS THESE GAMES WILL BE DEVELOPED BY OUR TEAM, WITH THE UNIQUE **REALISTIC APPROACH TOWARDS CONCEPTUAL REAL WORLD USE CASES.**

KOOP360 and team are honoured to launch an out-of-the-box Gamefi / Play-to-Own gaming experience soon with the best utility of KOOP Token within it. For quick information:

“ Play-to-own (also known as Play-and-Own) is a more in-depth version of play-and-earn. The model focuses on allowing players to earn from their gameplay while also converting the in-game into NFTs. It provides proof of ownership over the in-game objects they possess.” ”

The Research (not financial advice) Analysis by the KOOP360 Team:

GAMEFI Market size will reach to USD 40 Billion by 2032

- The current valuation of the GameFi tokens and projects has been dropped by decent % due to the lack of conceptual knowledge and integration with real world use cases.
- Big name studios have invested heavily in Gamefi / P2E / P&E / Metaverse Games and the growth is gradually increasing.

2.3 KOOP AI Tools

- KOOPAI tools are the different Artificial Intelligence tools and plugins that will boost the functions used by the internet and social media users since a very long time. KOOP360 team have researched and analyzed that, technically, each and every aspect will be required an AI-assisted tools in the coming future.
- KOOPAI is the prominent development phase project for KOOP360 team, as our AI experts and team have been programming easy-to-use Robotic single command tools and plugins for the users and KOOPERS. For quick information:

“Artificial intelligence or AI refers to the simulation of human intelligence in machines that are programmed to think and act like humans.”

QUICK VIEW ON TOP AI USE CASES

2.3 KOOP AI Tools

The Research (not financial advice) Analysis by the KOOP360 Team:

AI Market size is expected to reach USD 407 Billion by 2027

- 64% of businesses expect AI to increase productivity.
- AI will have an estimated 21% net increase on the US GDP by 2030
- World Economic Forum research estimates AI will create 97 million jobs.
- 25% of companies with labour shortages are adopting AI.
- One in 10 cars will be self-driving by 2030.

Artificial Intelligence Market Size, By Region, 2018 - 2030
(USD Billion)

2.4 KOOPWALLET

MY KEY | MY WALLET | MY FUNDS

KOOPWallet is a blockchain-based non-custodial wallet with the support of 07 blockchains and their assets. KOOP360 team has completed Phase 01 of the KOOPWallet with the features of **Send, Receive and HODL** the assets of 07 different public blockchain platforms.

The step forward towards the development of other phases of KOOPWallet by KOOP360 team including wallet-to-wallet blockchain based chatting feature, DApp browser, KOOPSwap feature within the wallet, Bridge among different blockchains, and Buy Crypto assets with debit/credit card.

KOOPWallet has been launched on iOS and Android with a very secure feature of send, receive, and hold the assets of 07 blockchains.

At present, there are more than 30,000 users till date, (June 2023) and counting.

2.5 KOOPVERSE EVENTS

KOOPVerse Events was an exclusive struggling trendy tech effort by the KOOP360 Metaverse team to develop a very specialized **state-of-the-art Metaverse Arena** for the next phase of Metaverse events including seminars, conferences, and even the concerts / musical events.

We are privileged to achieve the tag or title for Sidhu Moose Wala on May 29, 2023, for being the first to receive the on-stage TRIBUTE to any artist in the world of music and arts, performed within the latest Metaverse ecosystem.

2.6 KOOPVERSE

KOOPVerse is an NFT Marketplace where users can buy, sell, and trade non-fungible tokens, which are digital assets that are unique and usually can't be traded one-for-one for other assets.

KOOPVerse does function in a pattern similar to that of traditional online markets, in which the interaction between buyers and sellers, takes place on a centralized platform, but all transactions will be placed anonymously between the buyers and sellers through decentralized auto connected blockchain wallets integration.

KOOP360 team expert opinion is that Digital Ownerships over the blockchain for assets including real estate, bonds, commodities etc. will be adopted heavily without any borders or limits in the near future. Fractional Ownership will enhance the possibility of lucrative profits for the buyers and sellers including private and corporate clients.

2.6 KOOPVERSE

KOOPVERSE PLATFORM WILL BE INCLUDING THE FOLLOWING FEATURES:

- Purchasing and Selling NFTs
- Minting NFTs
- High Security
- Less Fees and Platform Commission
- Better UI experience
- Reputation through Independent Reviews
- Legal considerations (if possibly available)

Market is expected to REGISTER a CAGR of **47.2%**

The market was valued at **USD 61.80 Billion** in 2022

31.0% of global market revenue was accounted for by North America in 2022

Based on technology, the AR segment is expected to register a CAGR of **48.0%**

The market is **FAIRLY CONSOLIDATED** with a few large and medium-sized players accounting for majority market revenue

One of the **KEY DRIVERS** for market growth is the adoption of **Metaverse** in IT and telecommunication

2.7 KOOPDEALS

KOOPDeals is the e-commerce platform for the buying and selling of deals, projects, goods and services, or the transmitting of funds or data, over an internet securely. These business transactions occur either as business-to-business (B2B), business-to-consumer (B2C), consumer-to-consumer (C2C) or consumer-to-business (C2B).

The main objectives of KOOPDeals generally, comprise lower costs, increasing sales, and improving customer satisfaction.

Sales can be increased by attracting more customers through improved marketing strategies or by lowering the cost of products sold.

“Direct to Customer (D2C) is an additional feature of the KOOPDeals that will be added soon at our platform.”

2.8 KOOPTOKEN

KOOP Token is the fuel coin to the KOOP360 ecosystem, and it does generally facilitate transactions on a BSC blockchain but can represent KOOP Token users' / KOOPERS' stake to serve an economic purpose, just like any other legal tender. This means that KOOP Token holders can use them to make purchases or trades, utilize the KOOP360 ecosystem projects with discount, and staking services rewards, just like other utilities to make more profit.

3. FEATURES AND BENEFITS OF KOOP360 ECOSYSTEM

KOOP360 and its team are working with the purpose of the trendy tech adaptation according to the influence or impact on our daily life. We have never committed any claims that we are the best or expert in any field, or we are the trend setters, or we are the problem solvers, but we have been trying to move forward with step-by-step approach, to enhance the possibilities of developing the lucrative technology-oriented projects within our ecosystem, that will benefit our users / KOOPERS.

With the proven track record of the last 2 years, we are focused to develop the most widely used applications and tools that will assist us and our users / KOOPERS to boost the inner capabilities and open more opportunities for all of us, either through educated, or trained, or with expertise in the tech project within KOOP360 ecosystem.
